PROFESSIONAL SUMMARY

Dedicated Software Developer with a Master's in Computer Applications and hands-on professional experience developing and delivering code to quality and delivery SLA standards. Proven ability to maintain existing applications by resolving, troubleshooting, and debugging production issues. Skilled at understanding client requirements and translating them into clean, functional features across the full development lifecycle. Strong documentation discipline with experience managing incidents and change requests via ServiceNow. Oracle OCA Java SE certified with a published research paper — committed to continuous learning and delivering reliable, production-ready software.

TECHNICAL SKILLS

Languages:	Java (OCA Certified), JavaScript, ASP.NET / ASP.NET Core, Python
Frameworks:	Spring Boot 3, Spring Framework 6, Microservices Architecture, REST APIs
Frontend:	React.js, Node.js, HTML5, CSS3
Databases:	MySQL, PostgreSQL, MongoDB, Redis, SQL Server
DevOps & Tools:	Docker, Kubernetes, Git, JWT Authentication
ServiceNow:	Incident management, ticket creation & tracking, change requests, bug logging, knowledge documentation — used actively at Digitide Solutions
Methodologies:	Full SDLC, Agile / Scrum, Code Reviews, Debugging & Troubleshooting
Language:	English — Proficient

PROFESSIONAL EXPERIENCE

Junior Software Developer

Sep 2025 – Present

Digitide Solutions — Jamshedpur, Jharkhand

- Developed and delivered code for enterprise web applications used in TATA Steel's logistics platform, consistently meeting quality standards and delivery SLAs.
- Maintained existing applications by resolving, troubleshooting, and debugging 20+ production issues across frontend and backend layers, reducing downtime and improving reliability.
- Understood and analysed client requirements to develop code for new features — coordinating with stakeholders to ensure deliverables matched functional expectations.
- Maintained thorough documentation of code changes, feature implementations, and bug fixes, ensuring clear audit trails and smooth knowledge transfer.
- Managed incident tickets, change requests, and bug reports end-to-end in ServiceNow — logging issues, tracking resolution progress, updating knowledge base articles, and ensuring SLA compliance.
- Collaborated on REST API integrations and SQL Server database operations, ensuring reliable data flow between application layers.
- Participated in code reviews — giving and receiving structured feedback to uphold team coding standards and improve overall code quality.

Software Developer Intern

Jun 2022 – Aug 2022

IACT (International Academy of Computer Training) — Jamshedpur, Jharkhand

- Designed and developed a full-stack Nursing Home Management System in Java (AWT/Swing) with JDBC, ODBC, and MySQL — covering patient registration, appointment scheduling, and organisational data management.
- Engaged in the complete SDLC from requirements gathering through to deployment, building strong habits of code ownership, testing discipline, and documentation.

PROJECTS

Graphical Password Using Image Segmentation

Web Authentication System | Node.js, MongoDB, JavaScript, Python | Published: Elsevier SSRN — DOI: dx.doi.org/10.2139/ssrn.4997226

- Built a full-stack web authentication system using image segmentation — understood requirements, developed frontend and backend code, debugged across environments, and documented all technical decisions.
- Presented at ICICC-2025 and published in Elsevier SSRN Journal — demonstrating strong written communication and technical documentation skills.

Nursing Home Management System (NHMS)

Desktop Application | Java (AWT, Swing), JDBC, ODBC, MySQL

- Led a team in delivering a DBMS-backed Java desktop application for patient registration, scheduling, and organisational data management — applying OOP principles and relational database design.

EDUCATION

Master of Computer Applications (MCA)

Galgotias University, Noida, Uttar Pradesh

Sep 2023 – Jul 2025

Bachelor of Computer Applications (BCA)

Mrs KMPM Vocational College, Jamshedpur, Jharkhand

Aug 2020 – Aug 2023

CERTIFICATIONS & PUBLICATIONS

- Oracle Certified Associate (OCA) — Java SE | Oracle
- Big Data Computing | Indian Institute of Technology (IIT) Kanpur
- Presenter — 8th International Conference on Innovative Computing & Communication (ICICC-2025)
- Publication: 'Conjugation of Graphical Password Using Image Segmentation' | Elsevier SSRN Journal | DOI: dx.doi.org/10.2139/ssrn.4997226
